

SPORTS PREMIUM 2025-2026

Both children and adults alike are committed to the promotion of an active and healthy lifestyle. This is reflected in the positive attitude seen in PE lessons, after-school clubs and sporting competitions and events. Participation in physical activity at Pembroke CE Primary School is very high, with many children continuing participation outside of school as well as in the extra-curricular clubs offered after school. PE lessons are delivered with a view to engage and enthuse all children, regardless of ability, and to allow progression for all.

In order to deliver an engaging and high-quality curriculum, we:

- Adapt activities so that all children are able to participate;
- Incorporate the importance and facilitation of a healthy lifestyle;
- Aim to support teaching staff with relevant CPD to continue to build knowledge and understanding of the curriculum;
- Offer a range of sports and activities in order to allow all children to access a wide range of physical activity and to target specific interests which in turn promotes engagement for all;
- Provide an opportunity for competitive participation.

This year (2025-2026), our sports premium income is £19,695 – all of which will be allocated.

As a continuation of CPD for all teaching staff alongside adaptations to our PE curriculum and provision, we continue to employ a specialist sports coach (£7,020) to deliver one of the PE lessons per week for each class in the school. We use the national curriculum ensure children are accessing a broad curriculum that has both variety and quality. Our sports coach is well acquainted with our expectations of our school, with teachers and our pupils so has an excellent understanding of the curriculum and what we hope to achieve through our PE provision. We continue to deliver two hours of PE each week with one being delivered by the appointed sports coach and the other being delivered by the class teacher.

In the Summer Term, we will continue to provide the 10-week block of swimming lessons for years 2-4. Within this group of children, there are a number that require a 1:1 adult to enter the pool with them during the sessions. Without this additional support that is required, they would be unable to participate. The cost of this extra member of staff will be approximately £470. Due to the number of students and in order to facilitate all abilities, we will continue to use a trained swimming coach and provide children with an intensive 'crash course' at a cost of £1,330. In addition to this, there are a number of Year 5 and 6 children who will need to attend additional sessions to reach the expected national swimming standards. The cost for these additional children to achieve their 25m length will be £35 each for 'crash course'. The hire for the use of the pool is £60, the cost for a lifeguard is £35 per session (for up to 25 children). The cost for the transport hire is approximately £500. Last year, 8/10 pupils achieved the end of Key Stage 2 national curriculum requirements for swimming.

In order to increase provision and promote participation for KS1 children, we will be appointing a coach to deliver an after-school club for KS1 on a Monday after school. The cost of this will be £45 per session. In order to continue provision for a KS2 after-school club, we have appointed a specialist coach on a Thursday. With expertise in different areas, this will allow our KS2 children to access a variety of sports in extra-curricular clubs and access competitive and inclusive play which will equip them with the skills and confidence to partake in clubs outside of school, should they wish. This is an additional £45 per session. All of our after-school sports clubs are free of charge and ensure that *all* of our children have the opportunity to attend extra-curricular clubs regardless of financial circumstances.

Pembroke is a school where our creative teaching and learning is of the highest quality and where we encourage everyone to be inspired through faith in God and to live by Christian values so that our whole community flourishes and we reflect all that is 'worthy of praise'.

After the success of a series of sessions provided by Longtown Outdoor and Orienteering, we will be providing this opportunity for Class 2 again. Our aim is to provide these sessions for Class 2 every year, with one year focussing on Orienteering and the following year focussing on Outdoor and Adventurous Activities (such as archery). This will continue on a two-year rolling programme. During the Orienteering sessions, the children will be able to learn the skills in line with the National Curriculum and also experience Orienteering in other locations as they are able to run sessions at their own site, Shobdon Wood and others. The equipment and activities provided are specialised and qualified instructors are required for the delivery of these sessions. It was evident from last year's participation that the sessions were engaging and provided an additional opportunity that not all children would otherwise be able to access. This provision contributes to our aim of providing a broad and rich curriculum which offers opportunities for all children. A 5-session programme based on-site sessions would be £2,195.

During the autumn term, Infinity dance will provide a whole-school lunchtime club sessions at £25 per session, following this up with further inspiring training for pupil dance leaders. The total cost of this is £325.

Two years ago, Year 5 children participated in a Sports Leaders Programme that equipped them with the necessary skills for running activities for younger children. This was thoroughly enjoyed by both the leaders themselves and the participating children and promoted the participation in physical activity. We will run this programme again for the Year 5 children so they are then able to deliver sessions for younger children. Using their acquired skills, they can then take on the role as Playtime Leaders to provide active sessions for the rest of the school during playtime and lunchtimes. For this, we will need to finance the programme for the Year 5 children and also equip them with resources such as Sports Leaders t-shirt, whistles, folders and the sports equipment required. The cost of this will be £99 for registration (an additional £9 per pupil for certification) and £250 for equipment.

We are aiming to organise and liaise with cluster schools regarding the provision of matches and competitions. We have already entered the Mitchell Hamer netball competition and we maintain our links with Luctonians and Lady Hawkins who provide opportunities for avid sports-people in rugby, netball, rounders and football competitions but also multi-skills events for less confident children. If required, sports premium funding is used for transportation to and from these events and amounts to about £400 per return bus journey.

In order to access the high-quality provision we aim to offer, our equipment needs replenishing, updating and replacing. This includes the purchase of tennis rackets and nets, equipment for key stage 1 multi-sports, equipment for dance and a playground games strategy kit. This totals nearly £1900.

All of these opportunities enable us to continue to provide a varied, inclusive and engaging curriculum for all.
